

# Did you know there are over 1900 Threatened Species in Australia?

To raise awareness for the plight of these animals and plants, on 18 September 2017 Tristan O'Brien will begin a

## 1,900 km Walk

from Adelaide to Melbourne and across Tasmania.

Along the way he will be talking to local communities and groups about the importance of spending time outdoors and caring for our natural environment.

As part of the walk he will be collecting funds to recreate habitat for declining species and to sponsor young people to attend a life-changing week at Wollangarra Outdoor Education Centre (VIC).

And for a leg of this walk, I \_\_\_\_\_ WILL BE JOINING HIM!
